

Express Your SuperPower 5K Sponsorship Opportunities Available

**Saturday, October 1, 2016
Etowah River Park, Canton, GA**

Promoting and Supporting Breastfeeding Families throughout Georgia

Express Your SuperPower 5K will be promoted throughout Georgia and nearby states via media, public relations contacts, websites, distribution of flyers, Facebook, public service announcements and press releases. Opportunities for your company are numerous, with your name and logo reaching thousands of people.

A recent CDC report card shows that breastfeeding is one of the most effective preventive health measures for infants and mothers. According to the CDC, support for breastfeeding is needed in many different arenas including hospitals and birth centers, worksites, and communities. However, the CDC report shows that Georgia still lags behind the national average on infant breastfeeding rates.

The CDC states, "The success rate among mothers who want to breastfeed can be greatly improved through active support from their families, friends, communities, clinicians, health care leaders, employers, and policymakers. Given the importance of breastfeeding for the health and well-being of mothers and children, it is critical that we take action across the country to support breastfeeding."

Awareness will be raised about breastfeeding and the health of our babies and children through this run and walk.

This is a vitally important public health issue that affects the health of all Georgians!

Thank you for your consideration -- whether monetary, in-kind, services, products or time.

We could not make this happen without you!
